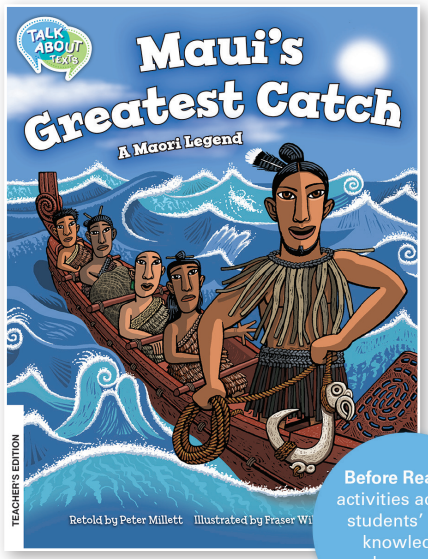
TALK ABOUT TEXTS

With its unique speaking oriented approach, **Talk About Texts** integrates the teaching of reading, vocabulary and oral language skills into one strong and effective program.



Vocabulary for Reading and Vocabulary for Talking are thoroughly taught and practised using the following strategies:

- Guided reading sessions
- Focused questions
- Answer frameworks
- Flashcards

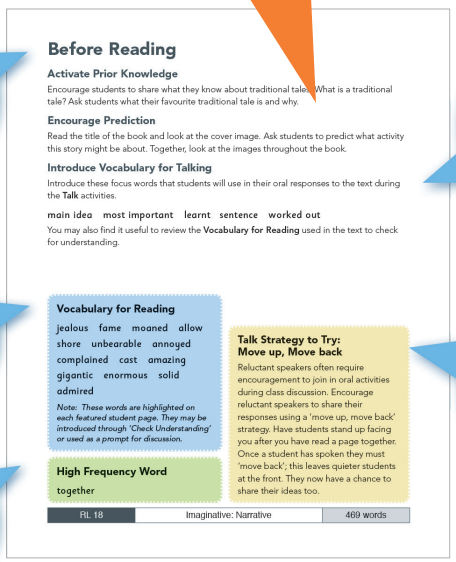
Before Reading activities activate students' prior knowledge and encourage prediction

Vocabulary for Talking introduces academic focus words, which students use in their spoken responses during the guided reading session

Vocabulary for Reading highlights rich 'tier 2' vocabulary used in this text

High Frequency Word/s are listed to help you support word accuracy and fluency

Talk Strategies provide you with an idea or approach to try during the guided reading session to improve students' oral language skills and comprehension through interactive talk



Before Reading

Activate Prior Knowledge
Encourage students to share what they know about traditional tales. What is a traditional tale? Ask students what their favourite traditional tale is and why.

Encourage Prediction
Read the title of the book and look at the cover image. Ask students to predict what activity this story might be about. Together, look at the images throughout the book.

Introduce Vocabulary for Talking
Introduce these focus words that students will use in their oral responses to the text during the **Talk** activities.

main idea most important learnt sentence worked out

You may also find it useful to review the **Vocabulary for Reading** used in the text to check for understanding.

Vocabulary for Reading
jealous fame moaned allow shore unbearable annoyed complained cast amazing gigantic enormous solid admired
Note: These words are highlighted on each featured student page. They may be introduced through 'Check Understanding' or used as a prompt for discussion.

High Frequency Word
together

Talk Strategy to Try: Move up, Move back
Reluctant speakers often require encouragement to join in oral activities during class discussion. Encourage reluctant speakers to share their responses using a 'move up, move back' strategy. Have students stand up facing you after you have read a page together. Once a student has spoken they must 'move back', this leaves quieter students at the front. They now have a chance to share their ideas too.

The Fish With Four Eyes

Written by Eileen Bourke Illustrated by Joan Paley

Little Fish lives in the sea. He likes swimming. His mommy says, 'Don't swim away from me!' Little Fish wants to swim where his mommy can't see him. He wants to see new things.

Little Fish's mommy is sleeping. Little Fish swims away!

Mommy opens an eye. 'No, you don't, Little Fish,' says Mommy. 'You stay near me. You are safe here. The sea is a dangerous place for you to be.'
