## READING

### 7 Read the text. Then choose the correct option.

#### Teen lifestyles around the world

##### Finland

Finland is famous for its parks and forests, so it's no surprise that spending time outdoors is very important there. Finnish teens do a lot of sports like cycling or canoeing. And they all can make time to relax and have a great family life. This is because a lot of parents only work five or six hours a day and the children don't get a lot of homework. A well-balanced diet with a lot of fish, good bread, potatoes, and dairy products also helps make Finnish teens happy and healthy.

##### France

Being a good student is very important, so French teens study hard both at school and at home. There isn't a lot of time for school clubs or spending time with friends on school days. At the weekend, a lot of teens love going to a café or the cinema together. Others play rugby, tennis or football. Mealtimes and eating together are important for French families. They love having delicious food and talking about their day.
