

AIM: To explore connections between learning to play a musical instrument and learning (a language) in the classroom.

1. Write the word 'Communication' on the board and ask pupils what they think it means in a [think-pair-share](#) activity. Elicit responses and write them on the board.
2. Then write the word 'Music' on the board. Brainstorm pupil's ideas and encourage them to make connections between their ideas about 'communication' and 'music'.

I.e. Both 'Communication' and 'Music' are forms of expression or a language. Both take years to learn so you need to be motivated. Both need effort and lots of practice to have a good level etc... (This might happen in the pupil's first language, but you can recast simple phrases to model language in english.)

3. Give pupils the wordsearch and explain that the words on the page are all values that both language learning and music have in common. Clarify any unknown words or give simple definitions and ask pupils to guess the matching word before asking pupils to complete the wordsearch.

4. Ask pupils to sit in pairs and guess what these words might be in Spanish and write them on the worksheet. Pupils then watch the video 'Tu clase es una orquesta' (00.00-00.28) to check their answers. (Play this more than once if necessary.)
5. Ask pupils: Which word does **not** appear in the video? (*Communication*)

1. Complete the wordsearch.
