Artists draw ideas in a sketchbook. First, plan a cover for your sketchbook. Then, make a sketchbook to draw your ideas.

- 1 Fold the paper in half.

- 2 Staple the pages together.

- 3 Decorate the cover.

Self-portraits

The Frame, Frida Kahlo. 1938

1

How is the woman in the painting similar to the woman in the photo?

2

How do artists create portraits?

Q

This is a **self-portrait**. It's a painting of the artist by the artist.

There are more than fifty self-portraits by Frida Kahlo.

Many artists paint self-portraits. First, they look carefully at their face. Then, they show the **shape**, **size** and **position** of the different parts of their face.

Does this artist show the shape, size and position of the parts of her face?

③ Complete the portraits.

Finished?
Colour the portraits.

Portraits

Artists use lines to divide the head.
Then, they draw the parts of the face.

① Draw eyes on the red line.

② Draw a nose above the blue line.

③ Draw a mouth on the green line.

④ Draw hair. Colour.

Finished? Draw a
portrait of a friend.
