

HEROES

Dear Parent,

Congratulations! Your child has been chosen to be the **Hero of the Week!**

To promote the use of English and encourage good habits and positive conduct both inside and outside the classroom, we have launched a new initiative based on the development of **Life Skills**.

Each week during lessons, we focus on a life skill and identify the specific values and demonstrable behaviours that can contribute to the development of this valuable skill for life. At the end of the week, a child that has genuinely demonstrated that they have understood and can apply the life skill in their day to day conduct is nominated and voted to be a **Hero of the Week**. As such, they are presented with a medal to wear at school and home for one week in recognition of their conduct and effort.

The benefits of having such a **Hero of the Week** award are multiple. It encourages children to think about their own values and behaviours and motivates them to apply positive behaviours in their lives - both inside and outside the classroom. It teaches civic and social values and equips them to be citizens, not only of their school but also of the world!

Please join us in celebrating your child's achievement by talking to them about the life skill they were developing, the behaviours and conducts and what they have learned from the experience. You play a vital part in your child's education so join them and be **Heroes of the Week** together!
