

GIVING FEEDBACK

Feedback is definitely an essential component of teaching and learning. Here are some of the ways I try to incorporate it in my classes.

WHAT IS FEEDBACK?

"Feedback is giving information about how one is making progress to achieve a goal."

Moutse Irún (Secondary English teacher and teacher trainer from Lleida)

- Moutse Irún's presentation on feedback at the 2019 APAC's spring workshops 
- APAC's spring workshops 

WHAT ARE THE KEYS TO CONSTRUCTIVE FEEDBACK?

According to Alba (English teacher from Alicante, @parentesiseducacion on Instagram) there are three keys to constructive feedback:

1. Something you liked (a positive aspect)
2. Something you'd do differently (a weak point)
3. Something you'd suggest for the future
(call for action - ideas for improvement)

- Alba Sabuco's principles for constructive feedback 

 **TIP** Liven up written feedback with a Bituwoji!

WAYS OF GIVING FEEDBACK ONLINE

Written feedback:

- via email
- "Private Comments" feature in Google Classroom

But if you want an alternative, why not leave a recording for your students?

* I love...

- Talk & Comment 
- Chrome extension 

* Benefits:

- You can leave these voice notes in any google document
- It gives a much appreciated personal touch
- Students like it because they find it less academic than written feedback.

* Talk & Comment - recommended by Gorka (Teacher from Pauplouna):

- Gorka's tutorial on how to give feedback using Talk&Comment, Vocaroo and Flipgrid, 

RECEIVING FEEDBACK FROM YOUR STUDENTS

I think it's important to take students' opinion into account so I can improve my work and cater for my students' different needs and wants.

Tools:

- Padlet 
Create a Padlet wall to ask students for their opinion at the end of a class or at the end of an activity.

- Mentimeter 
Create visual polls to get students' feedback instantly.

Fun features:

Polls are anonymous. I think this makes the whole thing more private and objective.

You can choose from 9 different types of questions, from multiple-choice to scales.

You can download the results as an Excel, as a screenshot or as a PDF.

And don't worry, Menti works very similarly to Kahoot, so even if students aren't familiar with it, they'll really quickly figure out how to use it!

> 5 Ways to Use Mentiometer to Engage and Interact with Students 

* I discovered Mentiometer through the EdTechTeacher website 

* You can follow them on Twitter here EdTechTeacher21 

YOUR TURN

Why don't you put your feedback skills into practise as you get a taste of what Mentiometer and give me your feedback on today's Teacher to Teacher?

- Head over to www.menti.com
- Type in the code 66 65 72
- Give your opinion on today's episode
- The poll will be open until Thursday morning.

Join me next Tuesday at 5pm when we'll be looking at the results of the poll!

I look forward to getting
your feedback. Usoa
