How does it work?

This classroom calendar outlines challenges that you can share with your pupils to work toward a specific Sustainable Development Goal. The idea is to carry out **one challenge per week** over the course of four weeks.

Then, share your class's experience of the challenge in the **Change Makers World**. There, you and your pupils can upload your ideas and be inspired by the proposals shared by other learners and teachers on the platform. Contributions can be submitted in the format of a video, photo, podcast, drawing, tik-tok, or **any other creative way** that reflects how you are making change happen.

These are just some ideas to get you started on your changemaking journey and your creative juices flowing, but the Change Makers community is an open space for any and all inspirational ideas.

Week	Challenge
Week 1	SDG 15 Craft a greener world
Week 2	SDG 3 Make fruit your go-to snack
Week 3	SDG 7 Switch on the power of small actions
Week 4	SDG 12 Taps off for teeth!
Continuing the journey:	Keep the challenge alive with Ideas from fellow teachers

15 LIFE ON LAND

Craft a greener world

Ask your pupils to bring the cardboard tube in the middle of their toilet roll to make crafts in class. You will be surprised at how many things they can come up with!

3 GOOD HEALTH AND WELL-BEING

Make fruit your go-to snack

Make fruit the new cool! Bring your favourite fruits to school and talk to your class about how it fuels their bodies and boosts their energy.

7 AFFORDABLE AND CLEAN ENERGY

Switch on the power of small actions

Empower students to save energy and reduce carbon footprint by turning off lights when leaving class or utilising natural light to benefit from its advantages.

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

Taps off for teeth!

Encourage students to turn off the tap while brushing their teeth. Just by turning off the tap while you brush your teeth in the morning and before bedtime, you can save up enough water to fill a huge fish tank that holds 6 small sharks!

Continuing the journey

Keep the challenge alive with ideas from fellow teachers

Ask students to draw a scientist, police officer, doctor, surgeon, person in the military etc. Discuss the genders they have unconsciously drawn. Why and what influences this?

ChangeMaker Challenge by **Zahirah Azmi** from **Agora Barcelona International School**.

Reuse the water from the canteen. Collect the water that is left over in glasses and pitchers and use it to water the plants around the school and garden.

ChangeMaker Challenge by **Susana Boldu Rodriguez** from **ELS Horts**.

Challenge students to write and illustrate a comic relating to the SDG of their choice.

ChangeMaker Challenge by **Ana Gazquez** from **Pineda**.

Put aside a table during recess where students can place unopened snacks (cookies, fruit, sandwiches) for those who didn't bring a snack that day.

ChangeMaker Challenge by **Teresa Lozano** from **Ravell**.

Let the water run for one minute while collecting it in a bottle or bowl under the faucet. How much water is wasted or used in one minute? Talk about it and do some calculations of how much water is used while showering for 10 minutes or brushing your teeth for 2 minutes.

ChangeMaker Challenge by **Enric Boldo** from **SE Pla de l'Estany**.

Share your ideas and explore the ideas of other Change Makers
from around the world:
